THE LATEST BULL!

President's Message “ Happy New Year and best wishes for all of our members and special thanks to all of you volunteers without with out which our club would not be what it is. I would also like to give praise to the National Rifle Association for their grant money which enabled us to extend the concrete sidewalk all the way to trap six. So keep your membership in NRA current and come out and enjoy your self with your friends at your great club.....” John Ginocchio

Raffle Winners: Ralph Campana was the big winner of the raffle drawing on December 21, taking cash in lieu of the Remington trap gun. Two flats of shells went to the 4H club courtesy of an anonymous donor, and one flat of shells was won by John Vallerga of Napa. Congratulations to our winners and thanks to all of you who “supported” the raffle this year.

Token Trap Issues

Beginning February 1st, trap six will no longer be available as the practice trap. Those of you who want to shoot trap on non-public days can now use trap 2. You will need to purchase tokens in advance from the office on either Sunday or Wednesday.

There will be a cordless voice call set kept in the club house which you will need to move out to the trap and set up. While you are picking up the voice call set, please sign the log sheet located on the table next to the voice call in the club house. If you are accompanied by non-member guests please put the \$10 fee in a small envelope provided and drop it in the slot in the office window board.

Be sure the trap has plenty of targets before you start shooting. There will be a supply of targets kept in the trap house. Then drop your tokens in the box and go “break ‘em all”!

When you're finished shooting, please pack up the voice calls and return them to the clubhouse.

If you are shooting by your self you can just use one of the “mics” and just carry it with you from post to post rather than setting out all five speakers.

members are active NRA members but some of you have joined the NRA but have yet to advise us of your membership number. Our goal of course is 100%. If you are new and haven't passed your number on to us please do so at your earliest convenience by contacting John, Ted, or Marv via phone, e-mail, or smoke signal. If you don't know your NRA number and can't find your card, check the address label on your magazine, i.e. American Rifleman or Hunter or whatever.

If you are not yet a member or your NRA dues need renewing; you may pay through the club and save \$10 off the regular membership cost. Contact John, Ted, or Marv.

“A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.” Second Amendment, U.S. Constitution....

Workers Corner

The 2009 calendar is on the bulletin board for your convenience in signing up for your Sunday work day. It is much better for you to choose a day than have us pick one for you. But if you don't care, on the 2nd Wed. of each month we choose work days for the following month. You can always call or e-mail us with your choice. We still need one *more willing worker* for January 11th. Thanks for your help! Jan & Bill Miller

WORKERS CORNER			
JANUARY		FEBRUARY	
4 th	Phil DeShazo, Garret Andersen, Wm. Davis	1 st	Kelly Webb, James Steenport Troy Taylor

NRA

According to club records, 69% of our club

Valley of the Moon Trap Club / P.O. Box 534 Vineburg, CA. 95487-0534

Website: <http://www.VOMTC.org>

is clear of people, animals, or vehicles before releasing the arm!!!

When reloading the machine, release the arm which throws the target on the table. The red launch arm will be visible on the left side of the machine. Place the orange safety cone on top of the roof and slide the roof back to gain entrance to the targets.

The turret consists of sixteen angle iron stacks into which the clay targets are carefully loaded (domed side up of course). Fully loaded, the turret holds 540 targets. Care must be taken to avoid breaking targets during reloading, but accidents do happen and when they do, be sure to clean all the big pieces out of the center of the turret to avoid jamming the stacks.

When reloading is complete, close the roof, place the cone in front of the house out of sight of the trap posts, turn the release switch back on and collect the empty bird cartons and you're ready to shoot again.

To become better acquainted with the system, you might ask some of the Sunday or Wednesday shooters for familiarization and tips on its operation.

Sam Grow Our resident NRA hunter safety instructor would like to recruit some volunteers to work as facilitators/instructors with the Department of Fish & Game's various seminar programs for youngsters.

Sam is also planning some reloading seminars if there is sufficient interest. Call Sam at (707) 638-0410 for more information.

	VOMTC	June 14
	Newark @ Livermore	July 12
	Livermore	August 2
	NBL Grand @ Martinez	September 13

VOMTC Website

*****Happy New Year!!!*****

Remember it is your responsibility to be there on your assigned day promptly at 9 a.m. to set-up the range and get assignments for the day. If you are unable make your assigned date, it is **your responsibility** to find another club member to replace you or pay a \$50.00 fine per club rules.

It is easier for us and better for you to pick your dates you know you can work rather than us assigning you a date. There are 3 easy ways of signing up.

- Sign up on the calendar at the clubhouse, or
- Call (707) 996- 5536 or (preferred) e-mail mrsjanim@comcast.net
- **As a very important last reminder, in order to receive credit for working, you "must" sign the work log located in the club house.** Please write the total hours worked ("all day" is not a viable answer). **PLEASE BE SURE TO PRINT YOUR NAME LEGIBLY AND "SIGN" THE LOG TO INSURE THAT YOU RECEIVE CREDIT FOR WORKING!!**

Components Sales

The component room hours are from 12 noon to 1pm on Sundays and Wednesdays. Due to limited availability of shot, we are limiting purchases to 100 lbs per member (4 bags) per month at \$29 per bag. Cheddite primers have gone down again to \$25 per thousand, or \$125 per case of 5,000. Fiocchi and Winchester shells will now be \$6.50 per box of 25 and \$60 per flat of ten boxes of 12 and 20 gauge shells.

Fire Arm & Trap Machine Safety

For those of you who are new to the club or are unfamiliar with the safe care and operating of our trap machines, the following is a short primer on safe operating procedures.

All seven of our trap machines are Pat-Traps which cost \$8000+ new. They operate on 110 volt 60 Hz A.C. electricity which powers a hydraulic motor for the servo actuator that causes the machine to oscillate left and right as well as up and down on the three wobble traps.

There is a switch box mounted inside the right forward wall of the trap house with two toggle switches. The rear switch is an off control for the pump motor and the front switch is the arm release control. It is a three position toggle switch (up is on, down is off, and pushing below down releases the arm to the safe position). ***Caution, be sure the area in front of the trap***
